DETAILED ACTION

1. Claims 1 to 39, 82 to 90 & 106 are presented for examination.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 8-31-2005 has been entered.

Information Disclosure Statement

3. The references listed in the information disclosure statement submitted on 8-31-2005 have been considered by the examiner (see attached PTO-1449). References (USP 6715116 and USP 6055653) were cited on the USPTO form 892 thus, they were not considered.

Allowable Subject Matter

4. Claims 1 to 39, 82 to 90 and 106 are allowed.

5. The following is an examiner's statement of reasons for allowance: the instant invention is directed to a method and a device for detecting device-enhanced memory modules by comparing data sequence read from a memory module with data sequence written to the memory module. The prior art made of record teaches detecting errors in a memory device comprising a plurality of memory modules; however, the prior art made of record taken alone or in combination fails to teach or fairly suggest or render obvious the novel element of the instant invention of determining an enhanced memory module from the results of the comparison step. Therefore, the claimed invention is novel over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
